

Together
ahead. **RUAG**

Be prepared for over water emergencies. Join our Sea Survival and Underwater Escape Training in September 2020.

Experience realistic scenarios first hand in a safe and secure environment, including underwater escape exercises and techniques specially developed for the Dornier 228.

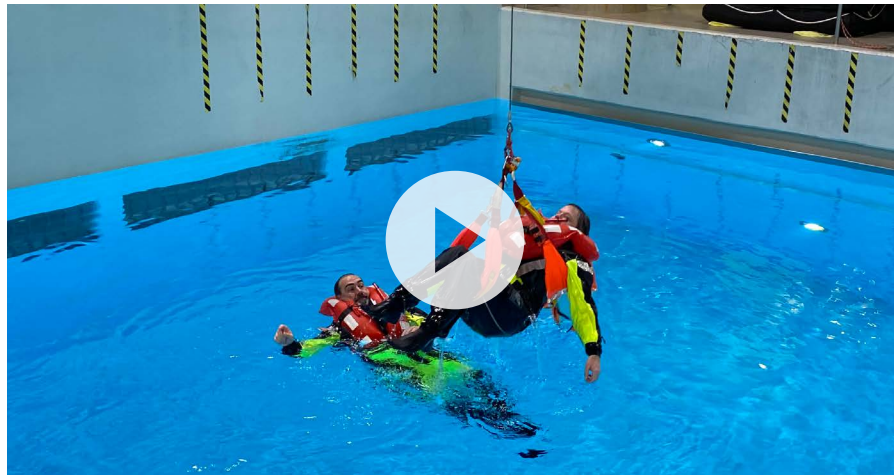

Customized training, close to reality

Our Dornier 228 training ensures your crews are well-prepared for a possible emergency over water. Using a unique cockpit/fuselage training device, the two-day module includes classroom instruction and in-pool exercises simulating different weather scenarios. The course offers basic firefighting, survival techniques, and underwater evacuation and revival.

Specially designed courses for pilots and crews

Secure your direct access to the latest technical and operational knowledge, as well as mission-specific procedures, in best-practice training courses from your Dornier 228 OEM.

This special Sea Survival and Underwater Escape training was developed and realized in cooperation with Deutsche WindGuard Offshore GmbH, located in the North of Germany.

Are you prepared?

Your next Sea Survival and Underwater Escape Training is available on
16 - 17 September 2020.
