Enhanced Modular Cockpit Concept (EMCC) for the Dornier 228

Modular by definition, the EMCC solution lets you pick and choose which features your glass cockpit should have. You control your flight deck options on your Dornier 228 as well as your budget. Our [factsheet](#) shows you how.

Join us at the static display to test which options work for you and your Dornier 228.

Adding safety and value

Choosing to upgrade to a glass cockpit with the EMCC solution adds value to your Dornier 228. Every EMCC glass cockpit option improves situational awareness, enhances safety and includes full ADS-B Out compliance. State-of-the-art avionics are specifically designed to fit your Dornier 228 so you’ll continue to feel confident in your cockpit environment.

Come to the static display at ILA Berlin 2018 to discover all your Dornier 228 options.
