

## Prepare for continued, safe operations with OEM Maintenance Check Flight Training

**Qualify your own pilots and crew for Maintenance Check Flights on your Dornier 228.**

Ensure you are ready. Perform approved system checks on your Dornier 228 aircraft after maintenance events. Our EASA compliant courses by our Dornier 228 OEM flight test pilots are ready for when you need them.

### Highly developed Level A certification training

Verify adequate maintenance on your own Dornier 228 with specially designed courses for pilots and crew.

Level A maintenance check flights, according to EASA Regulation 965/2012, Annex VIII, Subpart E, Section 5 MCF, lets you ensure all processes and functions are operating correctly so you are prepared for continuous and safe operations.

Dornier 228 Level A training features carefully designed modules with both classroom work and in-flight training.

#### Ground course includes -

- Review of EASA regulation SPO.SPEC.MCF.120
- Systems and aerodynamics
- Development of flight program and test cards
- Crew responsibilities and task sharing
- Recording of in-flight parameters
- Safety risk management and mitigation
- Checklists and safety briefings
- Specific maintenance check flight profile for the Dornier 228
- Data analyses

#### In-flight training includes -

- Hands on flying techniques
- Data gathering and assessment
- Specific maintenance check flight on the Dornier 228

### Enhance knowledge, develop trained personnel

Pilots and crew train on critical tasks at our Dornier 228 OEM facilities at Oberpfaffenhofen.

All training will be carried out by our very own factory engineers and test pilots.

### Are you prepared?

Ensure prompt aircraft readiness for your successful operations. Your Maintenance Check Flight Training can be scheduled to according to your needs.
