

SIMULATION & TRAINING

Featuring Tech Leaders

Intrinsically motivated to ensure positive training experiences

What does readiness mean for your role at RUAG?

Customers deserve powerful and successful Live simulations. I safeguard a flawless and efficient system.

What do you enjoy the most about your role at RUAG?

Preparing combat troops for the realities of demanding missions. Investigating and deploying methods to support their success is compelling.

What challenges you most?

Troubleshooting new component processes adds to complexity. Tasks are precise and scheduling is rigorous, for customers and our support team.

How do you meet the challenge?

Building relationships based on trust. Open communication with all teams ensures a common understanding of priorities and confidence in new solutions.

What made you want to work in S&T technology?

I completed my apprenticeship in electronics with RUAG S&T. We engineer solutions for the common good, together with reliable partners.

Pascal von Holzen, System Manager – Live, RUAG Simulation & Training

S&T mission: Ensuring mission readiness and reliable performance for Live systems components

Hobbies: Goalie, football; mountain biking; travel

Talent: Motivator; agile thinking and innate skill set combine with good-natured and open approach

Passion: Team Spirit – earning trust, promoting collaboration and targeting positive experiences

Rule to live by: Trust in yourself and contribute your very best to every new situation

Together
ahead. **RUAG**
