

Need ADS-B Out for operations beyond 2020?

Even more than an economical solution for modernizing your Dornier 228 cockpit, the enhanced modular cockpit concept (EMCC) ensures ADS-B Out compliance for 2020 and beyond.

Reserve your EMCC configuration upgrade kit

ADS-B Out compliance for your Dornier 228 at fixed prices

Keep your eye on your budget and on the horizon. We are accepting reservations for the EMCC upgrade package for your specific flight deck configuration kit(s).

Our firm and economical fixed pricing applies to all three EMCC variations. And, placing your order before 31 July 2018 guarantees you will benefit from a 5 % rebate.

Review our [factsheet](#) to determine the cockpit configuration that is right for you and your Dornier 228.

A commitment to adding safety and value

ADS-B Out requirements are all about safety. We too are serious about enhancing the safety of your missions while adding value to your Dornier 228 with a glass cockpit solution. And we're also mindful the EMCC features need to be economically viable.

Let's approach this together and define our common goal.

Ensure ADS-B Out compliance and place an order for your EMCC upgrade package today.
