Nose wheel issues

Some Dornier 228 operators have experienced an issue with flat tires on the nose wheel. Operators can learn how to mitigate this issue. Read the TalkDornier228.com forum today to learn more.

Operator spotlight: KASAS

Kenyan charter airline KASAS operates humanitarian aid flights across Africa for major NGOs using a fleet of 13 Dornier 228s, connecting remote areas. KASAS recently added a full-flight simulator, to comply with the international NGOs stringent requirements.

Dornier 228 Engine Ground Run Training

Engine ground run checks are crucial for safely preparing your aircraft for its next mission. Training is available. RUAG, as OEM, has created a specific course to give you hands-on experience for engine ground runs.

Jobs & Career: Bighorn Airways Dornier Captain

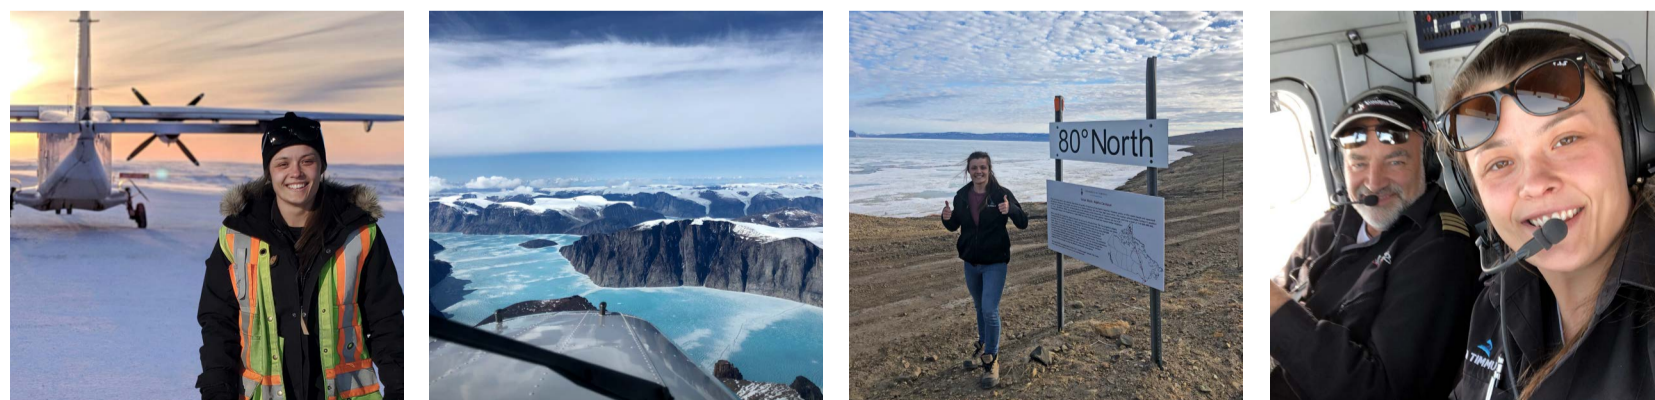

Looking around for a new opportunity? Or do you have open positions to fill for the Dornier 228 Community? We are happy to share it with our Community on the TalkDornier228.com forum.

From the web

- **Aerial firefighters:** battling blazes from the skies. Tanker pilots, helicopter operators, and smokejumpers need special skills (and morning coffee) to do their high-flying jobs.
- **Fuel cell development:** DLR and MTU to develop a new fuel cell system and validate it with a Dornier 228.
- **Sea Survival Training for pilots and crews:** training courses on: basic firefighting, survival techniques, underwater evacuation and revival.
- **Global Airborne Observatory:** A behind the scenes look at fieldwork above the coral reefs of Hawaii.
- **From Norway to Chile:** Witness an extraordinary flight with a Dornier 228 across various climates and challenging terrain.
