

Schedule your Dornier 228 OEM Maintenance Check Flight Training

Stay prepared for a prompt return to operations. Qualify your own pilots and crew with EASA compliant courses by our Dornier 228 OEM flight test pilots.

Highly developed Level A certification training

Verify adequate maintenance on your own Dornier 228 with specially designed courses for pilots and crew.

Level A maintenance check flights, according to EASA Regulation 965/2012, Annex VIII, Subpart E, Section 5 MCF, lets you ensure all processes and functions are operating correctly so you are prepared for continuous and safe operations.

Ground course features –

- Review of EASA regulation SPO.SPEC.MCF.120
- Development of flight program and test cards
- Recording of in-flight parameters
- Safety risk management and mitigation
- Specific maintenance check flight profile for the Dornier 228

In-flight training ensures –

- Hands-on flying techniques
- Specific maintenance check flight on the Dornier 228

Is your Dornier 228 ready for its next mission?

Ensure prompt aircraft readiness for your successful operations.

Your Maintenance Check Flight Training can be scheduled to according to your needs.
