

One stop for your Embraer Lineage and you save on time and costs

The one stop for your Embraer Lineage. Trust our experts to preserve the value of your asset.

Our Embraer Authorized Service Center in Munich-Oberpfaffenhofen counts over 160 Embraer Lineage service events since 2013. That means our reliable and highly trained specialists know your aircraft, inside and out.

Your schedule, our one-stop shop solutions for your M10 inspection

Optimizing your downtime saves on time and costs. With RUAG, you benefit from a full portfolio of services in one stop, at one location, and during one single downtime.

Our in-house shops are standing by, perfectly prepared to support your upcoming M10 inspection. We're ready to combine MRO services with upgrades like ADS-B Out and FANS, full exterior aircraft painting, and cabin interior refurbishment.

Your trusted partner for reliable support

We have contributed to your operational success with numerous MRO projects including heavy maintenance, engineering modifications, avionics and system upgrades, line maintenance, AOG, field services, and pre-purchase inspections.

We're passionate about what we do. Our team is dedicated to managing your optimized MRO inspection according to your individual needs.

Talk to us about your Embraer Lineage today.
